

Microsoft® Office Excel: Level 2

Online Training Course Content

Course Objective: Students will learn to sort and filter data, perform complex calculations and functions, and analyze data using PivotTables and charts.

Prerequisites: To ensure your success, we recommend that you have experience with creating, editing, formatting, saving, and printing spreadsheets in Excel. Knowledge of formulas and functions is also necessary (SUM, MIN, MAX, AVERAGE, IF, and applying absolute referencing). Students can obtain this level of skill through our Level 1 course.

Contact us to discuss if this level is right for you.

Delivery Method: Instructor-led, group-paced, hands-on online training with activities. Additionally, manuals are provided for each student for after class reference.
